

Name _____

Date _____

Indirect Length Word Problems - Guided Lesson

Complete the following problems:

1) Adam, Alex and Johnny are playing with balls. Adam, Alex and Johnny each brought their own ball. Write "A" under the biggest ball and write "C" under the smallest ball. Write "B" under the ball that is not the biggest or smallest.

Balls They Have:

Adam

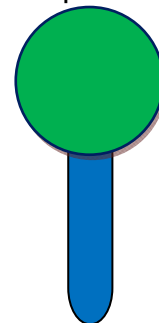

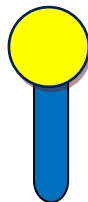

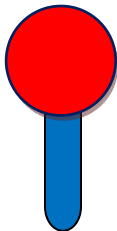

Alex

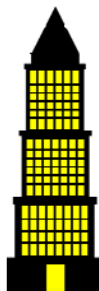

Johnny

2) Jack is riding his bike to school. On the road he saw traffic signals. There was one red signal, one yellow signal, and one green signal. He wanted to know which of the signals was the tallest, which was the smallest and which is not tallest or not smallest. Put "A" under the tallest signal, put "C" under the smallest and put "B" who was not tallest or smallest.

3. Ryan is a builder. He built three buildings last year. Put "A" under the tallest building; put "C" under the smallest, and place "B" under the building that is in between the height of the other two buildings.
