

Add and Subtract within 1000 - Guided Lesson Explanations**Explanation to #1**

Step 1) Add both the numbers on ones place, and If result is more than 9, then carry over the digit on tens place of the result to the tens place of the problem.

Step 2) Add both the numbers of the tens place with carry digit (if any).

Step 3) Then add both the numbers of the hundreds place and write the total of the sum.

$$(i) \quad 345 + 129 = 474$$

$$(ii) \quad 476 + 418 = 894$$

Explanation to #2

Step 1) Subtract both the numbers of the ones place, write the value at ones place.

Step 2) Then subtract the tens place numbers and write the difference in the tens place.

Step 3) Now, subtract both numbers at the hundreds place and write the answer.

$$(i) \quad 850$$

$$\quad - 440$$

$$\quad 410$$

$$(ii) \quad 960$$

$$\quad - 300$$

$$\quad 660$$

Name _____

Date _____

Explanation to #3

Step 1) This question has two parts. First we have to count the pear in each row and then we have to write the number on the lines.

Step 2) Now add the results of the counts of the pears.
