Visual Place Value: Ones, Tens, Hundreds Blocks Guided Lesson Explanation

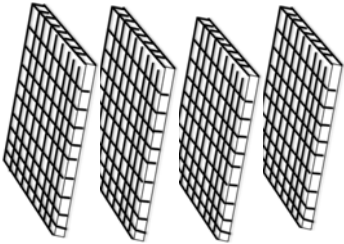

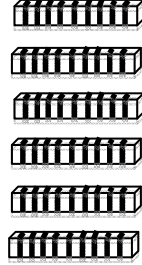

For all problems follow the simple steps.

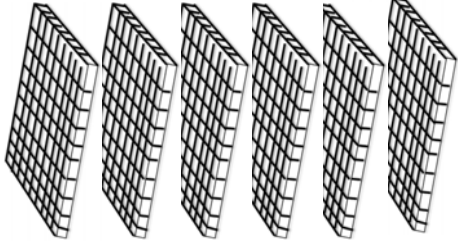

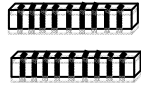

1. Count the number of each type of place value block you are given.**2. Multiple the number of blocks you have by the value of each block.**

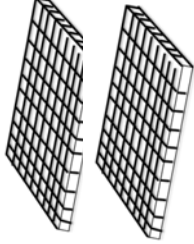

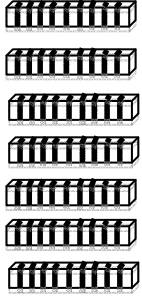

Find the value of each group of base 10 blocks.

$$300 + 50 + 2 = 352$$

1)  $\frac{3 \times 100 = 300}{\text{hundreds}}$  $\frac{5 \times 10 = 50}{\text{tens}}$  $\frac{2 \times 1 = 2}{\text{ones}}$ $\frac{\text{Total}}{300 + 50 + 2 = 352}$

2)  $\frac{4 \times 100 = 400}{\text{hundreds}}$  $\frac{6 \times 10 = 60}{\text{tens}}$  $\frac{6 \times 1 = 6}{\text{ones}}$ $\frac{\text{Total}}{400 + 60 + 6 = 466}$

3)  $\frac{6 \times 100 = 600}{\text{hundreds}}$  $\frac{2 \times 10 = 20}{\text{tens}}$  $\frac{4 \times 1 = 4}{\text{ones}}$ $\frac{\text{Total}}{600 + 20 + 4 = 624}$

4)  $\frac{2 \times 100 = 200}{\text{hundreds}}$  $\frac{7 \times 10 = 70}{\text{tens}}$  $\frac{6 \times 1 = 6}{\text{ones}}$ $\frac{\text{Total}}{200 + 70 + 6 = 276}$
