## Area of Squares Word Problems - Step-by-Step Lesson

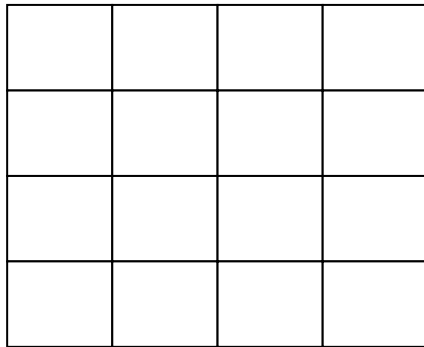

### Lesson 1 Area of The Rectangle:

Draw a square that is made up of 4 rows and 4 columns.

a) Find the area of square?

### Explanation:

Step 1) Draw 4 squares across. Draw 3 squares under each of those squares.

Step 2) To find the area we can count or multiply the number of rows and columns.

Count the squares inside the shape and you will get 16.

$$4 \times 4 = 16$$

so, the area is 16 square units.
