### Multiply or Divide Word Problems - Guided Lesson:

Solve following problems.

1) A dish company exports its products. The company needs to ship an order of 624 glass bowls. If each box can hold 6 bowls, how many boxes will the company need to use to ship the dishes?

2) John owns a jewelry store. Jewelers working in his store made 18 diamond necklaces. He put 3 diamonds on each necklace. How many diamonds did the jeweler use for all the necklaces?

3) A truck dealership needs to transport 88 trucks to an island. If the ferry can hold 8 trucks, how many trips will the ferry need to make?
