Functions as Inputs and Outputs - Guided Lesson

Complete the following problems:

1) This graph shows how the cost of a bus ride depends on the distance you travel on the bus (in miles).

If Kenny's bus ride is 6 miles long, how much will it cost?

2) Graph this function:

x	y
0	0
1	3
2	6

Click to select points on the graph.

3) Complete the table.

f(x) = 2x+5	
x	f(x)
-5	-
-1	-
1	-
5	-
