

Name _____

Date _____

Same Match - Step-by-Step Lesson

Match the number of clocks to the same number of bags. Draw from the clocks to the right number of bags.

Explanation:

Step 1) In the question above, there are 3 clocks.

Step 2) Look for the same amount of objects on the right.

Count the rows of bags. The top row has 3 bags. The bottom row has 4 bags. Draw a line from the clocks to the top row of bags, because they both have 3 items.
