

Name _____

Date _____

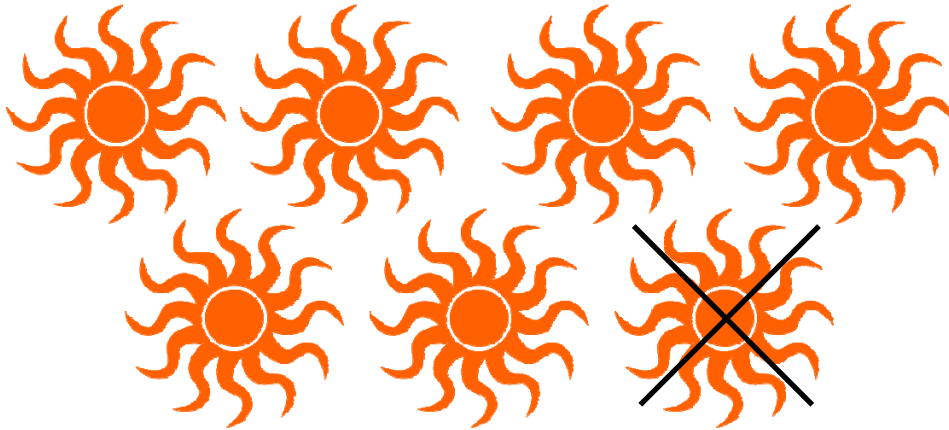

Learning to Subtract - Guided Lesson Explanation

Explanation#1

There are 7 suns in total.

1 sun has been crossed out.

If we subtract 1 from 7, we are left with 6 suns.

6

Explanation#2

There are 3 clouds in total.

1 cloud has been crossed out.

If we subtract 1 from 3, we are left with 2 clouds.

2

Name _____

Date _____

Explanation#3

There are 8 fires in total.

1 fire has been crossed out.

If we subtract 1 from 8, we are left with 7 fires.
