### Addition Word Problems - Step-by-Step Lesson

Katrina has two cows. One of them makes 30 kg of milk and the second cow makes 39 kg of milk. How much milk does Katrina have from both cows?

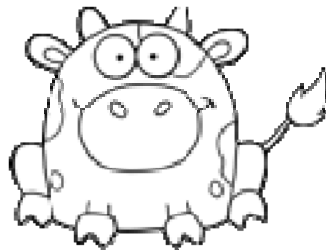

#### Explanation:

The first cow gives 30kg milk and second cow gives 39kg milk.

First Cow

30 kg

Second Cow

39 kg

Now add  $30 + 39 = 69\text{kg}$ .

Katrina got 69 kgs of milk from both cows.
