## Skip Counting By 5s - Guided Lesson Explanation

### Explanation #1

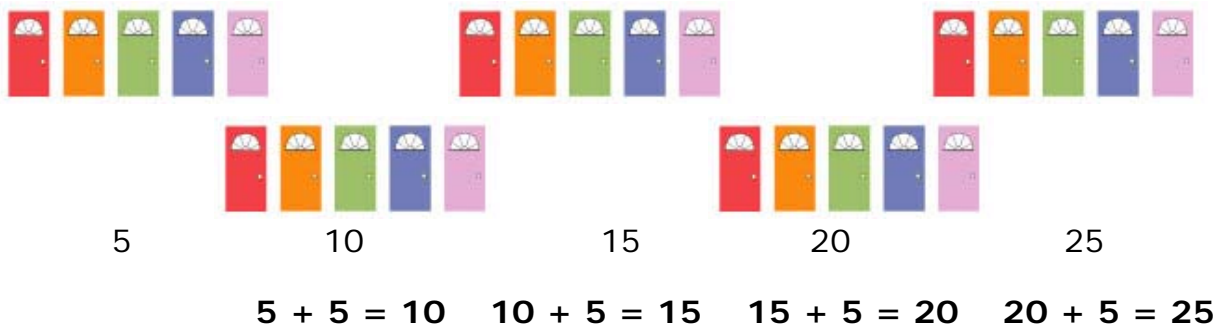

Step 1) First we have to see what is being asked.

“Find the total number of doors counting by 5s.”

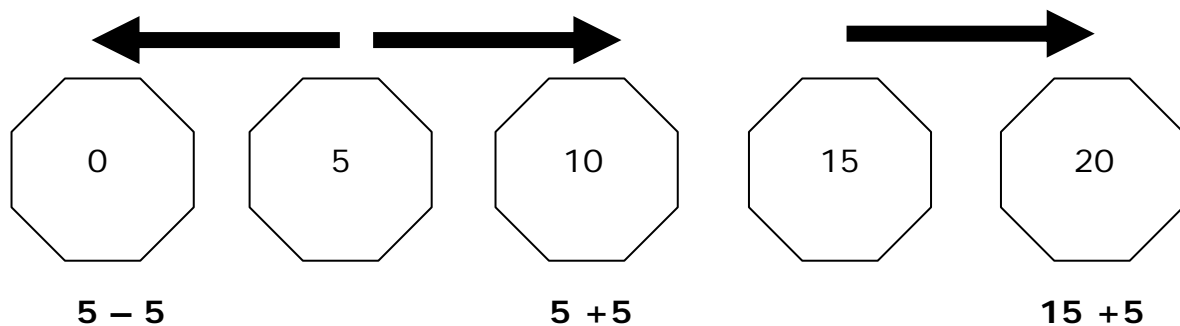

Step 2) We start at 5, so add 5 to each new space to find the total number of doors.

Step 3)

### Explanation #2

When we move to the right, we add 5 from the previous box. When we move to the left, we subtract 5 from the previous box.

### Explanation#3

As we move to the right, we add 5 to the previous box to find the value of the next box.

5	10	15	20	25	30
	$5 + 5$		$15 + 5$	$20 + 5$
