Decimal Subtraction - Guided Lesson Explanation

Explanation#1

Subtract as you would subtract whole numbers. Remember to write the decimal point in the answer on the same place.

$$25.735$$
$$- \underline{12.333}$$
$$\underline{13.402}$$

So, the answer is 13.402.

Explanation#2

Subtract as you would subtract whole numbers. Remember to write the decimal point in the answer on the same place.

$9.987 - 4.956$

So, the answer is 5.031.

Explanation#3

Subtract as you would subtract whole numbers. Remember to write the decimal point in the answer on the same place.

$$78.673$$
$$- \underline{21.351}$$
$$\underline{57.322}$$

So, the answer is 57.322.
