

Name _____

Date _____

Estimating Length - Step-by-Step Lesson

Estimate the length of the object. Circle the estimated length.

5 feet

5 inches

5 meters

5 centimeters

Explanation:

This is a pen. I would classify this as a smaller to medium sized object.

Feet and Meter are to measure bigger units of length. Centimeter is to measure smaller unit of length.

An inch is a measure of length of medium size object.

So the answer is inch.
