## Calculating Spending and Saving 1

Do you ever get money as a gift, or find some on the ground, or give it to your friend, or spend some to buy something? Do you want to spend it or save it? If you save it then you may be able to buy something even better later on.

Directions: Follow the path of the coins. If it says SAVE, then insert the coin in your bank and if it says SPEND then deduct that coin from your bank. At the end, add up all the coins that you have saved in your bank and record it on the line.

						
SAVE	SAVE	SAVE	SPEND	SPEND	SPEND	SAVE
						
SAVE	SPEND	SPEND	SPEND	SAVE	SPEND	SPEND
						
SAVE	SPEND	SPEND	SAVE	SAVE	SAVE	SPEND

I ended up with \_\_\_\_\_ ¢ 

in my Piggy Bank.
