Addition of Numbers (Under 100) - Guided Lesson Explanation

Explanation to #A

Step 1) Add both the numbers in the ones place and write the total of the sum.

Step 2) Add both the numbers in the tens place and write the total of the sum.

$$30 + 10 = 40$$

$$14 + 16 = 30$$

Explanation to #B

```
  3 6
+ 4 5
```

First add 6 + 5 which comes 11.

Put 1 on ones place and carry 1 on tens place, then 1 + 3 + 4 = 8

The answer is 81.

```
  8 0
+ 2 0
```

First add 0 + 0 in the ones place which comes 0.

Add 8 + 2 in the tens place= 10

The answer is 100.

Explanation to #C

8

10

+ | **18** |
