

Name _____

Date _____

Relate counting to addition and subtraction - Step-by-Step Lesson

a.) Count by 2 to reach 20 from the starting number.

8 _____ 20

Answer a) Identify what is being asked of you.

“Count by 2s to reach 20 from the starting number

We have to add 2 to the starting number and repeat that until we reach 20.

$$8 + 2 = 10$$

$$10 + 2 = 12$$

$$12 + 2 = 14$$

$$14 + 2 = 16$$

$$16 + 2 = 18$$

$$18 + 2 = 20$$

Name _____

Date _____

b) Count by 5 to reach 56 from the starting number.

44 _____ _____ _____ _____ _____ 74

Answer b) In this question we have to count by 5. It means we add 5 numbers more to the current number. We continue until we reach 74.

44 49 54 59 64 69 74

This is the way by which we can count by 5
