# Rapid Fire Horizontal Addition Math Facts

Jonny the dog has 5 bones. He sees 4 more bones and collects them. How many bones does Jonny have now?

The starting number in the problem is 5 and number of extra bones is 4.

We can redraw this as:

$$5 \quad + \quad 1 \quad + \quad 1 \quad + \quad 1 \quad + \quad 1$$

OR   5 + 4

When adding 4 more to 5, we just count up 4 places from 5.

6, 7, 8, 9

1 2 3 4

or 5 + 4 = 9
