

Properties of Operations as Strategies

Add the pictures according to the commutative property of addition.

+

+

 This means that when adding two numbers, the order in which the two numbers are added does not change the sum (total value).

 Either we add 5 pictures + 4 pictures or vice versa answer will be same.

+

$$5 + 4 = 9$$

+

$$5 + 4 = 9$$

This is the commutative property of addition.
