Name _____   Date _____

Related Addition and Subtraction - Step-by-Step Lessons

A)   Write a related addition fact for the fact family

27 + 23

B)   Write a related subtraction facts for the fact family

14 – 6

Explanation:

A) Related addition means you can add numbers in either order. You will get the same sum. Related addition facts use the same numbers and have the same sums.

27 + 23 = 50
23 + 27 = 50

B) Related subtraction facts use the same numbers and difference. To find the related subtraction fact, swap the number after the minus sign (subtrahend) with the number after the equal sign (difference).

The same numbers, 14, 6 and 8 will be present in both mathematical sentences.

14 – 6 = 8

14 – 8 = 6
