## Understand a Fraction on a Number Line - Step-by-Step Lesson

Lesson 1 : Circle the line that would express the fraction  $\frac{3}{4}$

### Explanation:

Here, we have to circle  $\frac{3}{4}$

There are 5 lines on the number line. The first line would be 0.

Each line would then be  $\frac{1}{4}$ . Count 3 blocks on number line as 3 is the numerator and circle that line.
