**Represent a fraction on a number line - Step-by-Step Lesson****Lesson 1 - Write the fraction represented by each letter.**

A)  $X = \underline{\hspace{2cm}}$

B)  $I = \underline{\hspace{2cm}}$

**Explanation:**

Step 1) First we look what is being asked about the fraction.

Step 2) Here, we have to recognize the fraction represented by the letters. We identify that there are 4 blocks between 0 and 1. This means that every block is worth  $\frac{1}{4}$ .

Since the letter "X" is on 2<sup>nd</sup> vertical line or on the 1<sup>st</sup> block and letter "I" is on 4th vertical line or 3<sup>rd</sup> block.

Step 3) A)  $X = \frac{1}{4}$

B)  $I = \frac{3}{4}$
