

Name _____

Date _____

Measuring Time in Minutes - Guided Lesson Explanation

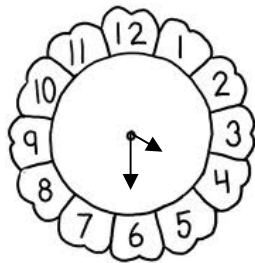

Explanation 1:

- a) As it appears on the timeline Kyle was born in 1977 and Peter was born in 1983. So Peter was born after Kyle.
- b) As we seen on the timeline, in 1983 and 1989 two people were born.

Explanation 2:

The little hand (hour) is pointed at the 4. The big hand (minute) is point at the 6 or 30 minute position. So as we can see in the clock it shows 4:30.

Answers: The time shown on the clock is 4:30 o' clock.

Name _____

Date _____

Explanation 3:

In order to determine the time 2 hours from now, we must first determine the current time. The big and little hands on the clock are pointing to 12. So, the time shown on the clock is 12 o' clock.

We now have to add 2 hours to that time. If we advance 2 hours ahead of 12 o' clock it would move the small hand to 2 or 2 o' clock.

Answers: So the test starts at 2 o' clock.
