## Multiplication and Division Word Problems - Guided Lesson

Complete the following problems:

1) Allie wants to make 6 cakes. She has 30 cherries which are divided evenly on 6 cakes. How many cherries are on each cake?

2) Barrie has 10 bottles of Pepsi stored in each box. If there are 30 boxes, how many total bottles of Pepsi are there in the 30 boxes?

3) There are 40 students and 240 oranges. The oranges are divided equally among the students. How many oranges does each student get? Each student also has 10 apples. How many apples are there in the class?
