Date _____

Creating Products and Quotients Lesson

Make the number in the circle by using 1 form of Multiplication and 1 form of Division.

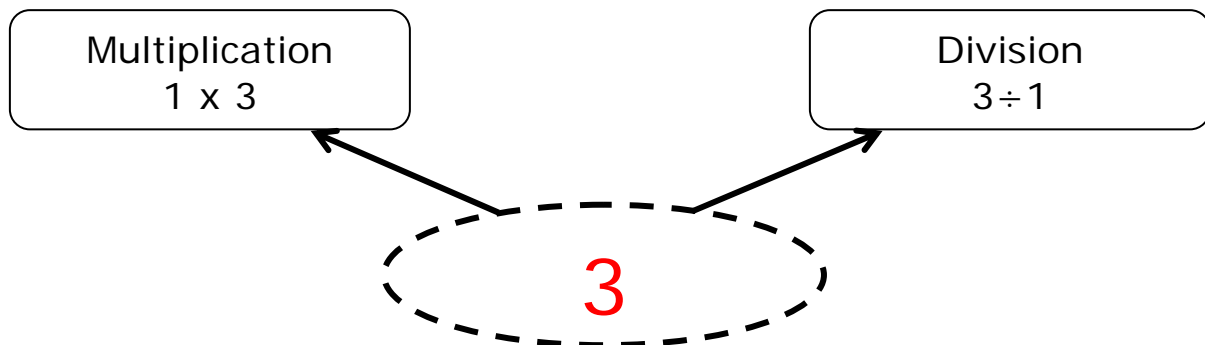

Factors of 3 are 1 and 3.

So, 3 can be written as product of 1 and 3, as, 1×3 and 3×1 .

In division form, 3 can be written as, $3 \div 1$.

Now fill the block with any one set of data calculated above.
