Name _____   Date _____

Adding Angles of Measure - Guided Lesson Explanation

Explanation to #1

Sum of total angle = p

p   = 50° + 20°

p   = 70°

The answer will be '70°'.

Explanation to #2

Sum of total angle = x

x   = 20° + 30°

p   = 50°

The answer will be '50°'.

Explanation to #3

Sum of total angle = 80°

80° = p + 35°

p   = 80° - 35°

X   = 45°

The answer will be '45°'.
