Working with Absolute Value - Guided Lesson

Complete the following problems:

1) Find the absolute value.

(a) $|4| = \underline{\hspace{2cm}}$ (b) $|-27| = \underline{\hspace{2cm}}$ (c) $|-18| = \underline{\hspace{2cm}}$

2) Simplify each equation below.

(a) $-6 + |-4| = \underline{\hspace{2cm}}$

(b) $8 - |-3| = \underline{\hspace{2cm}}$

(c) $-|-2| - |9| = \underline{\hspace{2cm}}$

3) Simplify each equation below.

(a) $-8 - |4| = \underline{\hspace{2cm}}$

(b) $-|-1| + |7| = \underline{\hspace{2cm}}$

(c) $5 - |-3| = \underline{\hspace{2cm}}$
