Working with Absolute Value - Matching Worksheet

Match the equation to their answers. Write the letter of the answer that matches the equation.

_____ 1. Simplify each equation below. a. -41

$$66 - |22| = \underline{\hspace{2cm}}$$

_____ 2. Find the absolute value. b. -22

$$|-42| = \underline{\hspace{2cm}}$$

_____ 3. Simplify each equation below. c. 44

$$-16 - |8| = \underline{\hspace{2cm}}$$

_____ 4. Find the absolute value. d. 69

$$|39| = \underline{\hspace{2cm}}$$

_____ 5. Simplify each equation below. e. 42

$$-15 - |-26| = \underline{\hspace{2cm}}$$

_____ 6. Find the absolute value. f. -86

$$-|-4| = \underline{\hspace{2cm}}$$

_____ 7. Simplify each equation below. g. 39

$$-28 - |58| = \underline{\hspace{2cm}}$$

_____ 8. Find the absolute value. h. -24

$$|-69| = \underline{\hspace{2cm}}$$

_____ 9. Simplify each equation below. i. -4

$$18 - |40| = \underline{\hspace{2cm}}$$
