Name _____   Date _____

Mean, Median, and Range from Data Displays - Guided Lesson

Complete the following problems:
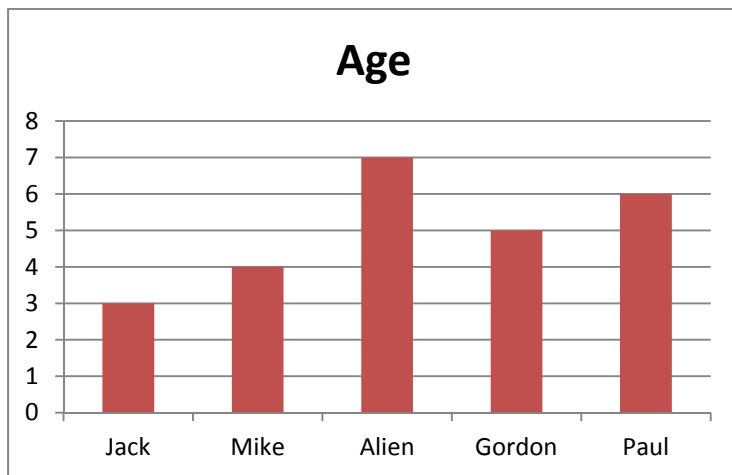

1) Madeline checked the available RAM on 6 computers in the computer lab. The amounts were:

3 GB   6 GB   5 GB   4 GB   2 GB   1 GB   1 GB

What was the median amount of memory available?

2) The gym teacher made a table showing the ages of her student.

What is the median age of her students?

3) The table shows the number of days math students attended extra help after school. What is the mean, median and range for the data set?

Student	Days Attended
Smith	15
Johnson	17
Jones	20
Davis	16
