

Name _____

Date _____

TV Time

Ashley was asked to track number of hours spent watching television by each family member for one week. She was then supposed to find which day was most popular for television viewing. Complete the chart at the bottom of the page to determine mean, median, mode, and range of the TV time throughout the week. Use the information to answer the questions below.

1. Which day was most popular, by average, for television watching? _____
2. Which day had the smallest range? _____
3. Which day had the lowest mode? _____
4. What was the most common mode? _____
5. On which day were the Mean, Median and Mode the same? _____

Hours Watching TV Per Day

Day	Father	Mother	Ashley	John	Mean	Median	Mode	Range
Sunday	5	5	4	6				
Monday	1	3	2	3				
Tuesday	1	2	3	3				
Wednesday	2	1	2	4				
Thursday	3	2	1	5				
Friday	2	1	1	1				
Saturday	4	3	3	1
