Interpret and Compute Quotients of Fractions - Guided Lesson

Complete the following problems:

1) Watson made chocolate cookies that he wants to serve his friends. He wants to give each friend $\frac{1}{4}$ of a plate of cookies. How many servings are in 3 plates of cookies?

2) Perry purchased a bunch of grapes. He wants to share them with his five friends. How many grapes will each friend get if all 5 friends share $\frac{1}{3}$ lb. of grapes equally?

3) How much toffee will each person get if 4 people share $\frac{1}{2}$ lb of toffee equally?
