

Add and Subtract with Decimals

To add and subtract with decimals,
make sure you've got all your
"ducks in a row".

That is, make sure your decimal points
line up with each other!

| | | | |
|----------|------------------------------------------------------------|-------------|------------------------------------------------------------|
| Correct: | $\begin{array}{r} 456.89 \\ -245.60 \\ \hline \end{array}$ | NOT: | $\begin{array}{r} 456.89 \\ -245.60 \\ \hline \end{array}$ |
|----------|------------------------------------------------------------|-------------|------------------------------------------------------------|

Meets Common Core Standard: 6.NS.B.3
