

## Making and Reading Tape Diagrams Guided Lesson Explanation

### Question 1 Explanation:

Our tape diagram has 3 parts. Peter spends \$4 + \$1 and has \$8 left over.

So Peter started with  $\$4 + \$1 + \$8 = \$13$ .

### Question 2 Explanation:

In the tape diagram, each block represents 5 runs. So Mike made 5 runs. Mark had  $5 \times 3 = 15$  runs. The diagram further shows that Rich scored 10 more runs than Mark. So, Rich =  $15 + 10 = 25$ .
