Making Tape Diagrams: Worksheet 1

1. During a clearance sale, a toy shop offers a 20% discount on all toys. You purchased a Barbie doll and received a \$10 discount. What was the total amount paid for the doll? Use a tape diagram to solve the problem.

2. In an office, the number of male workers is 3 times greater than female workers. If there are 60 female workers, how many male workers are in the offices? Use a tape diagram to solve each problem.

3. David had \$80. He spent $\frac{4}{5}$ of his money on books. How much money did he have left? Use a tape diagram to solve the problem.
