Date _____

Understanding Division of Integers - Guided Lesson:

Complete the following problems:

A) Divide the integers

1) $9 \overline{) -72}$

2) $-25 \div -5$

3) Kevin made $\frac{1}{2}$ of a pound of cake. He has a bunch of containers for the cake. Each container holds $\frac{1}{6}$ of a pound. How many containers will Kevin be able to fill?
