## Markups and Markdowns Word Problems - Guided Lesson

Complete the following problems:

- 1) A shirt is on sale for 40% off. The sale price is \$12. What was the original price? What was the amount of the discount?

- 2) Sam buys a lamp during the sale. There was a discount of 20%. If the original price is \$4, what is the sale price?

- 3) A pen is marked down 40% from the original price. The original price was \$50. What is the sale price of the pen before sales tax?
