

Name _____

Date _____

Interpreting Slope and Intercept - Step-by-Step Lesson**Lesson 1 Intercept Problem:**

The table below displays the hourly salaries of a company's employees and the number of years they were with the company (referred to as leaves). Make a scatter gram of this data.

| | | | | | | | | | | | | | | |
|---------------------|----|----|----|----|----|----|----|----|----|----|----|----|----|----|
| Leaves | 6 | 4 | 2 | 3 | 7 | 9 | 0 | 1 | 2 | 3 | 6 | 4 | 3 | 1 |
| Salaries (In \$) | 60 | 50 | 40 | 30 | 55 | 65 | 45 | 35 | 70 | 50 | 75 | 60 | 45 | 70 |

Explanation:

We will plot the point in the graph according to the given data.
