## Solving Simultaneous Equations (Linear and Quadratics)

## - Independent Practice Worksheet

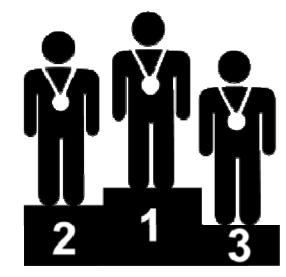

Solve the following simultaneous equations:

1. 
$$y = x + 8$$

$$Y = x^2$$

$$2. y = x+12$$

$$Y = x^2$$

3. 
$$y = x+9$$

$$Y = x^2$$

4. 
$$y = x + 3$$

$$Y = x^2$$

5. 
$$y = x+7$$

$$Y = x^2$$
