

## Congruent Triangles: SSS and SAS Theorems - Guided Lesson

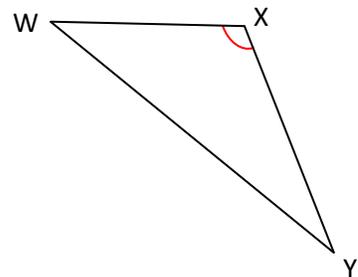

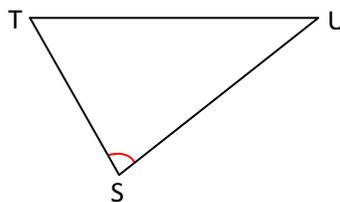

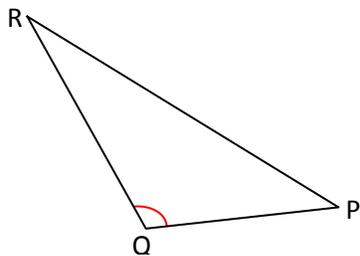

Complete the following problems:

1) Which two triangles are congruent by the SAS Theorem? Complete the congruence statement.

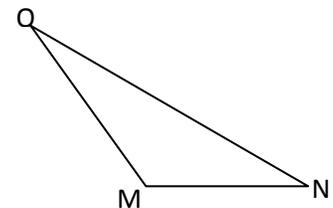

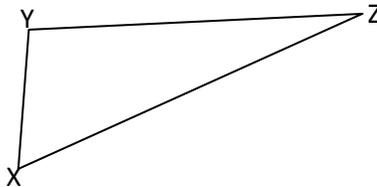

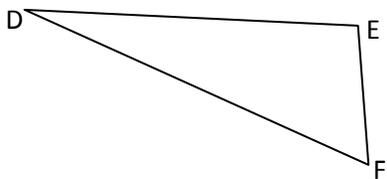

$$\triangle \square \cong \triangle \square$$

2) Which two triangles are congruent by the SSS Theorem? Complete the congruence statement.

$$\triangle \square \cong \triangle \square$$

3) Which two triangles are congruent by the SSS Theorem? Complete the congruence statement.

$$\triangle \square \cong \triangle \square$$
