

Congruent Triangles: AAS and ASA Theorems- Guided Lesson

Complete the following problems:

1) Which two triangles are congruent by the ASA Theorem? Complete the congruence statement.

$$\triangle \square \cong \triangle \square$$

2) Which two triangles are congruent by the AAS Theorem? Complete the congruence statement.

$$\triangle \square \cong \triangle \square$$

3) Which two triangles are congruent by the AAS Theorem? Complete the congruence statement.

$$\triangle \square \cong \triangle \square$$
