Name _____   Date _____

Finding Midpoints - Matching Worksheet

Write the letter of the answer that matches the problem.

_____ 1. What is the coordinate of the midpoint of PQ?   M= (1.5, -3)
                                                                                   a.

_____ 2. A (6, 5) and B (7, -3) are the endpoints of a line segment. What is the midpoint M of that line segment?   b.   Midpoint of GS is 78

_____ 3. What is the coordinate of the midpoint of BA?   Midpoint of
                                                                                   c.   PQ is 92

_____ 4. A (5, 3) and B (4, -2) are the endpoints of a line segment. What is the midpoint M of that line segment?   d.   Midpoint of MN is 99

_____ 5. What is the coordinate of the midpoint of GS?   M= (6.5, 1)
                                                                                   e.

_____ 6. A (8, -5) and B (-4, -3) are the endpoints of a line segment. What is the midpoint M of that line segment?   f.   Midpoint of BA is 92.5

_____ 7. What is the coordinate of the midpoint of MN?   M= (2, -4)
                                                                                   g.

_____ 8. A (2, -1) and B (-5, -5) are the endpoints of a line segment. What is the midpoint M of that line segment?   h.   M= (4.5, .5)
