

Name _____

Date _____

Unwrapping Mother's Day Equations

Directions: Solve for the following equations.

1. 

Solve for m

$$m + 53 = 98$$
$$m = \underline{\hspace{2cm}}$$

4. 

Solve for r

$$r = 128 \div 16$$
$$r = \underline{\hspace{2cm}}$$

2. 

Solve for t

$$t - 79 = 36$$
$$t = \underline{\hspace{2cm}}$$

5. 

Solve for h

$$75 \times h = 675$$
$$h = \underline{\hspace{2cm}}$$

3. 

Solve for c

$$17 \times c = 68$$
$$c = \underline{\hspace{2cm}}$$

6. 

Solve for l

$$l \div 8 = 69$$
$$l = \underline{\hspace{2cm}}$$

Unwrapping Mother's Day Equations **Answer Key**

Directions: Solve for the following equations.

1. Solve for m

$$m + 53 = 98$$
$$m = \mathbf{45}$$

4. Solve for r

$$r = 128 \div 16$$
$$r = \mathbf{8}$$

2. Solve for t

$$t - 79 = 36$$
$$t = \mathbf{115}$$

5. Solve for h

$$75 \times h = 675$$
$$h = \mathbf{9}$$

3. Solve for c

$$17 \times c = 68$$
$$c = \mathbf{4}$$

6. Solve for l

$$l \div 8 = 69$$
$$l = \mathbf{552}$$
