Greater Than, Less Than, or Equal Coloring Challenge

You will need 3 things to color with. You will need to have three different colors. Color each box below with just one color of those colors. In the end, each box should have a different color.

1 Less Than **2** Greater Than **3** Equal

Now count the number of triangles above. Color all the sets of shapes below by comparing them to the number of triangles. If there are less in the shape set than the number of triangles, color those shapes with your less than (1) color. If there are more, use your greater than color (2). If there are equal numbers as the number of triangles, use your equal (3) color.
