

Name: _____

Date _____

Skill Explored: Count Forward from a Given Number Step-by-Step Lesson

Directions: Count from the starting number to the number 10.

4 ___ ___ ___ ___ ___ 10

Is something not normal? Yes, you are correct. We normally start counting with the number 1, but in this case we start with the number 4.

When we see something like this, we just continue on as if we have already counted 1 – 2 - 3 - 4.

That means the next number is 5 and we would continue on from there.

Step 1) 4 5 ___ ___ ___ ___ 10
 ➔

Step 2) 4 5 6 ___ ___ ___ 10
 ➔

Step 3) 4 5 6 7 ___ ___ 10
 ➔

Step 4) 4 5 6 7 8 ___ 10
 ➔

Step 5) 4 5 6 7 8 9 10
