Name _____   Date _____

Mixed Digit Addition Word Problem Lesson and Practice

Ella travelled 437 miles on Monday and 584 miles on Wednesday. How many miles did she travel altogether?

Number of miles Ella travelled on Monday   =   437

Number of miles Ella travelled on Tuesday   =   584

Number of miles Ella travelled altogether   =   437 + 584

                                              =   1021

Answer: 1021

Practice Problems

1	In a grocery store, there are 234 orange juice cans and 189 berry juice cans. How many cans are there in all?
2	There are 26 cows and 13 pigs in a farm. How many animals are there on the farm?
