Name _____   Date _____

Picture Addition - Guided Lesson Explanation

Explanation#1

Step 1) First we have to see what is being asked.

Step 2) We have to count both of the groups. Now we've found 2 fish in the first group and 4 fish in the second group. So write these values below the groups.

Step 3) Now we have to add 2 + 4

Step 4) So the answer is

2   +   4   =   6

Explanation#2

Step 1) First we have to see what is being asked.

Step 2) We have to count both of the groups. Now we've found 1 balloon in the first group and 2 balloons in the second group. So write these values below the groups.

Step 3) Now we have to add 1 + 2

Step 4) So the answer is

1   +   2   =   3

Explanation#3

Step 1) First we have to see what is being asked.

Step 2) We have to count both of the groups. Now we've found 4 toffees in the first group and 5 toffees in the second group. So write these values below the groups.

Step 3) Now we have to add 4 + 5

Step 4) So the answer is

4   +   5   =   9
