## Checking Account - Online Banking 1

Having a checking account and completing transactions are easier than ever. Online banking allows checking account holders to access their accounts and initiate transactions from the comfort of their home or office. For example, you can transfer money from checking to savings or pay your bills. However, the bank may charge you a fee for this convenience.

### Formula for Calculating Fees

$$\text{Basic Fee} + \text{Bill Payment Fees} + \text{Statements} + \text{ATM Fees} + \text{Cash Advance Fees} = \text{Total Fees}$$

**Directions: Read each question carefully and write your answer on the line provided.**
