Name _____   Date _____

Decimal Subtraction - Step-by-Step Lesson

Subtract the following numbers.

55.560

- 42.200

Explanation:

Subtract as you would subtract whole numbers. Remember to write the decimal point in the answer on the same place.

In Action)   55.560

          - 42.200

            13.360

So, the answer is 13.36.
