

Name _____

Date _____

Visualize Decimals - Step-by-Step Lesson

Fill the grids to show the decimal.

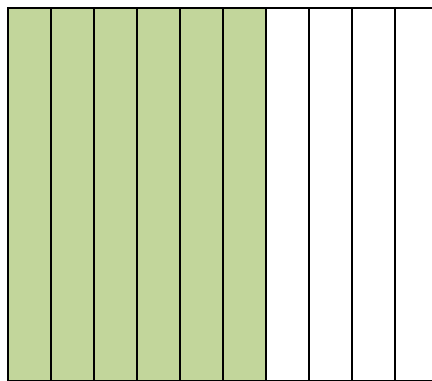

0.6

Explanation:

If you look at the figure, you will see that it is broken into ten units. This is perfect because we have six-tenths. This equal to 6 units out of 10 units.

According to the given numbers we will fill the 6 blocks. It will appear as below:

0.6
