Division of Large Numbers - Step-by-Step Lesson

Divide the numbers below:

$$7 \overline{)6706}$$

Explanation:

We can see that we have to divide 6706 by 7.

$$\begin{array}{r} 958 \\ 7 \overline{)6706} \\ \underline{-63} \\ 40 \\ \underline{-35} \\ 56 \\ \underline{56} \\ 0 \end{array}$$

The answer is 958.
