Estimating Sums and Differences with Fractions-

Independent Practice Worksheet

Complete all the problems.

1. Estimate the sum of the fractions.

$$9\frac{1}{7} + 4\frac{1}{2}$$

2. Estimate the difference of the fractions.

$$\frac{2}{3} - \frac{8}{25}$$

3. Estimate the difference of the fractions.

$$5\frac{1}{3} - 2\frac{2}{5}$$

4. Estimate the sum of the fractions.

$$\frac{9}{10} + \frac{4}{8}$$

5. Estimate the difference of the fractions.

$$9\frac{6}{8} - 4\frac{4}{6}$$

6. Estimate the sum of the fractions.

$$\frac{2}{11} + \frac{10}{20}$$

7. Estimate the difference of the fractions.

$$\frac{13}{14} - \frac{7}{8}$$

8. Estimate the sum of the fractions.

$$3\frac{3}{8} + 4\frac{1}{6}$$

9. Estimate the sum of the fractions.

$$2\frac{4}{8} + 7\frac{6}{7}$$

10. Estimate the difference of the fractions.

$$\frac{5}{6}-\frac{4}{5}$$
