

Name _____

How to Find a Fraction of a Whole Number Lesson

Find $\frac{3}{5}$ of 20.

Explanation:

Step 1) Turn the “of” statement into a multiplication symbol and rewrite the problem.

$$\frac{3}{5} \times 20$$

Step 2) Rewrite the whole number as a fraction by writing it over 1.

$$\frac{3}{5} \times \frac{20}{1}$$

Step 3) Multiply the fractions and solve.

$$\frac{3}{5} \times \frac{20}{1} = \frac{60}{5} = 12$$
